Comments:

With this assignment I tried to show where I came from and the things in my life that directly affected my decision to enter this major as well as my ability to create art from my past. The people who create in us the ability ourselves to create are important so I wanted to show how people and places have impacted my work.

Comments:

With this assignment I tried to capture the everyday nature of Sara Webber and her relaxed attitude.

The profile taken of myself was depicted near a tree on campus to show a connection with campus as well as nature. However, I did not originally take them in camera raw because I was told the settings on Sara's camera were set to that.

Comments: I took an exponential amount of time
taking these video clips when my family visited me
for a weekend away from Rhode Island. Some of
the shots are on campus and some on the road,
giving the sense of how much I travel in a day.
However when I purchased a new laptop, my old
one did not transfer over all of my original clips. In
this way I have fewer than twelve but my clips are
still interesting and overall I was pleased.

Comments: During this assignment I altered pictures of Jane Apple. The Natural view was a little difficult due to the lighting found in the original picture, so I tried to alter the lighting to produce a softer image. The creative piece in my opinion came out very interesting. I used multiple vector masks to alter coloration on her face and give almost a gilded statuesque feel to her profile.

Comments: I felt very confident with this piece. I

had some knowledge of how to use garageband and tried to use this knowledge to create a spatially interesting piece. I bounced back between left and right input with multiple sounds to create the idea of an encompassing sound. This project was effective in my opinion.
